

## Worded Arithmetic Problems

### Starter

1. **(Review of Y7 material)** Footballs cost £3.60 each. If you bought 4 balls, how much change would you have from £20?
2. **(Review of Y7 material)** An athletics track is 400 m long. How many laps do the 5 km runners need to run.

### Notes

Money answers should be to 2 decimal places unless the answer is a whole number of pounds i.e. not £67.4 but £67.40.

[Solutions to Starter and E.g.s](#)

### Exercise

p70 Ex 4.4 Qu 1-10

### Summary

Money answers should be to 2 decimal places.
